## DETAILED ACTION

### *Election/Restrictions*

1. Claims 12-17 represent a plurality of disclosed patentably distinct species.

Claim 12 is directed to a method of chemically treating a surface of a member, including the step of periodically changing at least one of the pressure and the flow rate of the treatment fluid.

Claim 13 is directed to a method of chemically treating a surface of a member, including the step of periodically changing flow direction of the treatment fluid.

Claim 14 is directed to a method of plating a surface of a member, including the step of periodically changing at least one of the pressure and the flow rate of the plating fluid.

Claim 15 is directed to a method of plating a surface of a member, including the step of periodically changing flow direction of the plating fluid.

Claim 16 is directed to a method eliminating residue from a member, including the step of periodically changing at least one of the pressure and the flow rate of the treatment fluid.

Claim 17 is directed to a method eliminating residue from a member, including the step of periodically changing flow direction of the treatment fluid.

Applicant is required under 35 U.S.C. 121 to elect a **single** disclosed specie, represented by claim 12 **or** claim 13 **or** claim 14 **or** claim 15 **or** claim 16 **or** claim 17 even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. J. Wyand, esq., on 06/27/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
